KINETICA
10 YEAR ANNIVERSARY EXHIBITION

Kinetica's anniversary exhibition marks its 10 year legacy as a leading platform for international kinetic, electronic & new media art.

The artworks within the exhibition have an intrinsic life force and aim to challenge perceptions to question what is real, perceived or imagined. Reality vs virtuality, duality and invisible realms will be explored. The works, evocative of harnessing elements in nature, delve into the subconscious and comment on our place within the Universe. The works are insightful, experiential, engaging and magical. Each work, sets off a powerful connection to another worldly realm, an art with a life of its own.

The exhibition will feature over 35 artists from 10 countries.
Chris Levine
Presence of an angel
BLIPVERT
